

MARTY SCOTT

(they/them)

Brooklyn, NY | 909.456.0467 | greatmartyscott@gmail.com
marty64.net | github.com/martychouette | martychouette.itch.io

A game designer and programmer who works where narrative meets mechanics and aesthetics meet systems. I prototype early, iterate on feel, and build end-to-end - from encounter logic and narrative state machines to camera systems and audio-driven accessibility. I also built an aesthetic-first game engine from scratch in C++/Vulkan. 15+ years of audio makes me sensitive to timing and what a moment reads like.

SKILLS

Game Design: Greyboxing, rapid prototyping, play-testing, iterative design, system balancing, tuning

Gameplay Systems: Encounters, interactive objects, narrative scripting, state machines, behavior trees, combat systems, 3D math

Languages: C#, C++, Python, JavaScript, Java, SQL

Engines / Tools: Unity, Unreal, GameMaker, TEGE (open source, BSL 1.1)

Engine Development: C++20, Vulkan, ECS architecture, visual scripting, shader authoring

Audio: FMOD, Pro Tools, Logic, Ableton (15+ years)

EXPERIENCE

NYU Game Center - Studio Game Director & Producer | Spring 2025

- Led production for a multidisciplinary game team, owning schedules and task tracking from prototype through milestone builds
- Coordinated playtests and feedback capture, translated findings into prioritized next steps
- Served as communication hub across design, engineering, art, and audio
- Managed demo readiness: build stability, presentation flow, last-mile polish

NYU Game Center (Tisch) - Code Help Desk | 2025 - Present

- Help BFA and MFA students with code issues across Unity, Unreal, Processing, and GameMaker
- Troubleshoot broken projects and walk students through fixes

NYU Game Center Conference - Speaker | 2025

- Presented on game design pedagogy and accessibility

PROJECTS

RhodesTrip | Producer / Designer / Programmer / Audio | Unity, FMOD, Ink, Blender

- Third-person driving + exploration with conversation and puzzle elements (team of 4)
- Built narrative state machine, cameras, vehicle controls
- Designed encounters, composed music, coordinated cross-discipline team
- Owned prototype slice, iterated based on playtests

IRIS (In-Progress) | Solo Developer | Unity

- Third-person environmental exploration with physics-based flower trimming and arranging
- Prototyped tactile interactions; iterated on feel and reliability

Blackout | Solo Developer | Unity, FMOD

- Sightless 2D platformer built around auditory navigation with no visual cues
- Designed audio-driven feedback and progression: navigation cues, mix logic, accessibility hooks
- Published research whitepaper on designing for blind play

Cold Flame | Solo Developer | Unity

- Autobiographical physics game about life, loss, and chopping wood

- 9-minute experience with voiceover, using physics mechanics as emotional metaphor

TEGE - The Enjin Game Engine | Solo Developer | C++20, Vulkan

- Designed, directed, and shipped an aesthetic-first open source game engine with a complete editor, 70+ ECS components, dual physics backends (Jolt/Box2D), and AngelScript scripting with 721 bindings
- Full ray tracing pipeline, 30+ post-processing effects, retro rendering modes, and 44 starter templates
- Accessibility suite with 8 colorblind modes, screen reader support, switch access, and motor accessibility

Purrfect Pizza VR | Design / Music / Audio Programming (Team of 6) | Unity, VR Toolkit, Logic

- VR game gamifying formal language constructs through pizza-making for cat bosses

Prototype Studio Gallery | 11 Weekly Prototypes | Unity

- One per week; text adventures, physics toys, 3D environments, naval strategy, emotional vignettes

PEDAGOGICAL WORK

VG101 Knowledge Base | marty64.net/kb | In Development

- Open pedagogical text for teaching videogame design as its own medium

EDUCATION

NYU (Tisch) - MFA, Game Design (Game Center) | 2024 - 2026

Cal Poly Pomona - BS, Computer Science | 2021 - 2023

Mt. San Antonio College - AA/AS, Database Management & Programming | 2018 - 2021

Musicians Institute - AA, Piano Tech (Audio Engineering emphasis) | 2009 - 2011
